

# BEEF - THE FUTURE FORUM

ROMA SHOWGROUNDS: 10th JULY 9.30am - 1.30pm

## **Australian beef producers**

receive: lowest prices in the developed world,  
highest government costs, and face escalating debts.

Drought prices are being paid for good cattle and the industry is in crisis.

Even more regulation is being required of us.

Aust grassfed producers pay MLA \$56m annually,  
have the least amount of representation,

### **No real vote, and NO SAY!**

MLA is run by 6 Peak Councils, all have conflicting interests, but all of them use our money to pursue their own agendas.  
Over 30 'boards' represent the beef industry, all have their hands in our pockets, but what do we get for that money?

Processors control their own \$9m levies, have reserve money & tell MLA what to do.

Cattle Council is ineffective, broke and a liability to producers - have to go hat in hand to MLA for \$\$.

Despite cleanest health status, our markets are disappearing to USA and others who have BSE, FMD, lower health status.

**We need a Board elected by producers for producers,  
our levies managed effectively, grassfed industry protected and enhanced,**

Producers need to demand a change now!

**WE CAN RUN OUR OWN BUSINESS! WE CAN EMPLOY THE BEST! WE DEMAND CHANGE!**

*Fill your cars, bring a chair, tell us you'll come.*
